

CRAIG VAN DEN BRULLE

Delaunay Steel Dining Table by Craig Van Den Brulle

American
21st Century

Inspired by the mathematical and computational geometric concept, the Delaunay triangulation algorithm, this distinctive metallic cubist-style dining table stands 84"L x 42"W x 30.5"H. The table base (38.5"L x 20"W x 29.75"H in size) perfectly holds the table's glass top, beautifully showcasing the triangular mélange below. Designed by Craig Van Den Brulle, edition of 15.
